

CORPORATE SPONSORSHIPS

The 2007-2008 is coming to an end and I would like to take this time to say Thanks to all the Corporate Sponsors for their support this year. This is a new concept of sponsorship that was started this year on a trial basis. It worked real well and I am happy to say I will continue to promote it in the upcoming year. There are some companies that sponsor more than one event through out the year and had rather pay for it all at once and get it over with. That way they don't have to come up with the money several times a year and it saves us having to ask them at the time of the event to help us out. If they are a corporate sponsor we already have the money so we show them as a sponsor. We have several different levels of sponsorships and each level has different benefits for the company. The higher the level the more benefits. Not only is the company helping NAPMW with their sponsorship but NAPMW is giving back to that company with tickets that apply for free entry to some of the events we have during the year. It also offers free advertising in the monthly newsletter and on the Internet. It is great advertising exposure for your company. I have already started working on the benefit packages for the upcoming year and will be contacting some of the companies to see if they are interested in becoming a Corporate Sponsor. If anybody is interested in knowing more about this program, please contact me and I will meet with you and go over what we have to offer. The program will start in June, which is the beginning of the 2008-2009 year. Even if you sign up after June it will run a full year. Now I would like to say **Thanks** to the Corporate Sponsors for the year 2007-2008. Tulsa Abstract & Title Company-**Diamond Level**; Ron Scott Appraisal Service-**Sapphire Level** and Chicago Title Insurance Company-**Bronze Level**.
